

Favour Bakare

Software Developer

Email: favourbakare24@gmail.com • Phone: 07046907027

PROFILE

Software Developer with hands-on experience building, optimizing, and scaling real-world web applications. Strong track record of improving performance, reducing development time, and increasing user engagement through well-structured React and Next.js applications. Focused on ownership, impact, and delivering production-quality software.

PROFESSIONAL EXPERIENCE

Software Developer • Edupathway (EdTech Platform) | Feb 2025 – Jun 2025

- Improved application load time by 30%, contributing to smoother onboarding and improved user retention.
- Built and maintained scalable frontend architecture using React, TypeScript, and Tailwind CSS.
- Integrated REST APIs and managed complex client-side state using Redux and React Query.
- Delivered clean, accessible UI flows aligned with product and business requirements.

Software Developer • Aric Circle (Startup Platform) | Aug 2024 – Nov 2024

- Built and shipped a responsive startup platform supporting real-time updates and growth-ready features.
- Cut development time by 20% by designing reusable UI components and shared styling patterns.
- Integrated third-party APIs to power dynamic content and user interactions.
- Collaborated closely with product stakeholders to deliver a launch-ready solution on schedule.

Software Developer • Propout (Real Estate Platform) | Jan 2024 – Feb 2024

- Designed and developed a production-style real estate platform using Next.js.
- Boosted application performance by 25% through rendering optimization and efficient component design.
- Increased user engagement by 20% by improving navigation, layout clarity, and UI responsiveness.
- Focused on maintainability, scalability, and real-world usability rather than demo-level features.

Software Developer • Alpha Tech School & Hub | Sept 2025 – Present

- Built and maintained responsive web interfaces using React, JavaScript, HTML, and CSS.
- Taught and mentored students in frontend fundamentals, React, and modern UI development practices.
- Converted Figma designs into pixel-accurate, cross-browser-compatible user interfaces.
- Participated in sprint planning, code reviews, and iterative delivery to improve code quality and velocity.

PROJECTS

Gabon Cacao & Sugar Company (GCS) • Corporate Website | 2026

- Designed and developed a professional corporate website showcasing company operations, leadership, media, investor resources, and corporate information.
- Built a responsive application using Next.js, TypeScript, and Tailwind CSS for desktop and mobile experiences.
- Developed and integrated API-driven functionality using Node.js and REST APIs for dynamic data and backend services.
- Built reusable, maintainable components with a focus on responsive design, performance, and scalability.
- Managed development, API integration, testing, deployment, and final production refinements.

Technologies: Next.js, TypeScript, Node.js, Tailwind CSS, REST APIs

CORE SKILLS

JavaScript, TypeScript, React, Next.js, Node.js, Redux, React Query, REST APIs, Tailwind CSS, Performance Optimization, Responsive and Accessible UI Design, Git, Agile/Scrum, Figma

EDUCATION & CERTIFICATION

Frontend Development Certification • Alpha Tech School & Hub (Dec 2022 – Jun 2023)

O-Level Certification • Ilupeju High School (Class of 2023)
