Profile

Frontend engineer with hands-on experience building, optimizing, and scaling real-world web applications. Strong track record of improving performance, reducing development time, and increasing user engagement through well-structured React and Next.js applications. Focused on ownership, impact, and delivering production-quality software.

Professional Experience

Frontend Engineer • Agrivest (Agri-Fintech Platform) | Dec 2025 – Feb 2026

- Building a production-focused agri-fintech platform centered on investment tracking and financial transparency.
- Designing scalable React and Next.js architecture to support complex user flows and data handling.
- Integrating APIs and managing application state for real-time updates and reliability.
- Treating the project as a real product with long-term maintainability and business impact.

Frontend Engineer • Edupathway (EdTech Platform) | Feb 2025 – Jun 2025

- Improved application load time by 30%, contributing to smoother onboarding and improved user retention.
- Built and maintained scalable frontend architecture using React, TypeScript, and Tailwind CSS.
- Integrated REST APIs and managed complex client-side state using Redux and React Query.
- Delivered clean, accessible UI flows aligned with product and business requirements.

Frontend Engineer • Paymon (Payment Platform) | Jan 2024 – July 2024

- Built and optimized a web-based payment platform using Next.js with a focus on speed and reliability.
- Boosted application performance by 25% through rendering optimization and efficient component structure.
- Increased user engagement by 20% by improving navigation and transaction flow UX.
- Implemented reusable UI components to ensure consistency and faster feature development.

Frontend Engineer • Alpha Tech School & Hub | Sept 2025 – Present

- Built and maintained responsive web interfaces using React, JavaScript, HTML, and CSS.
- Taught and mentored students in frontend fundamentals, React, and modern UI development practices.
- Converted Figma designs into pixel-accurate, cross-browser-compatible user interfaces.
- Participated in sprint planning, code reviews, and iterative delivery to improve code quality and velocity.

Core Skills

JavaScript, TypeScript, React, Next.js, Redux, React Query, REST APIs, Tailwind CSS, Performance Optimization, Responsive and Accessible UI Design, Git, Agile/Scrum, Figma

Education

O-Level Certification • Ilupeju High School (Class of 2023)
